The Fly Golf Band is a unique new way to hold a divot tool and ball marker on a wristband. The custom wristband contains a powerful rare earth magnet which attracts the divot tool. This provides a quick easy way to access the divot tool from outside of your pocket. Less fiddling around rummaging through a pocket full of change and other items and more time being ready on the green!

Each Fly Golf Band contains the Following:

1 FlyGolfer.com divot tools & ball markers

1 FlyGolfer.com magnetic silicone wrist bands (one-size-fits-all)
